

CITB Health & Safety Awareness (HSA)

Accreditation: CITB

Course Duration: 1 Day

Validity: 5 Years

Grant: Grant Available

Overview

The CITB Health & Safety Awareness course is aimed at people who are entering or are already working in the construction and civil engineering industry.

This course gives candidates practical advice and understanding and on the health, safety and wellbeing of employees and the public. It will cover your individual and employer responsibilities and what they should do if someone's health and safety is compromised.

Entry Requirements

There are no formal entry requirements, however it is recommended for learners to have the following:

- Good understanding of spoken and written English
- If under 18, written consent from a parent or guardian to attend

Course Content

- The need to prevent accidents
- Understanding health and safety law
- Identifying how each worker's role fits into the control and management of the site
- Understanding the need for risk assessments and method statements
- Appreciating the need to work safely and to stop and ask for advice if not sure
- The obligation to report unsafe acts to prevent an accident

Assessment

- One (1) Day – Classroom-based and Online Options available
- Learners must attend the full day (8 hours) and pass the end of course assessment to be eligible for certification.

Certification

Successful candidates will be issued with an CITB Health & Safety Awareness certificate (valid for 5 years).

Grants

CITB grants are available - please speak to one of our team for further information.
